ABOUT ME

Information Systems student at Institut Bisnis Informatika Kesatuan (currently in my 6th semester, GPA 3.5) with a genuine interest in UI/UX design and front-end web development. I like turning ideas into clean, functional interfaces, which I've put into practice through hands-on projects like GoHijau and PKMRI Bogor, alongside real-world data analysis experience monitoring SCADA-based systems. Curious, detail-oriented, and always eager to learn new tools, I'm looking to grow further through an internship or entry-level opportunity in UI/UX design.

UI/UX & WEB PROJECTS

GoHijau — Website Design & Development

- Designed and built the GoHijau website end-to-end, from wireframes and UI mockups to a functioning, responsive site
- Applied UI/UX best practices (layout hierarchy, navigation flow, and visual consistency) to create an intuitive user experience

PKMRI Bogor — Website Collaboration

- Collaborated on the design and development of the PKMRI Bogor (Perhimpunan Karyawan Katolik Republik Indonesia) website
- Contributed to UI design and page layout to improve navigation and the overall look of the organization's online presence

EXPERIENCE

Data Analyst Intern – Water Distribution Zone Monitoring via SCADA

6 Months

PDAM Tirta Pakuan Kota Bogor • Bogor, Indonesia

- Monitored and analyzed real-time water distribution zone data via SCADA system
- Detected anomalies and irregularities in water flow across monitoring zones
- Prepared daily & weekly reports and coordinated findings with technical and field teams

EDUCATION

Bachelor's Degree in Information Systems

Semester 6 (Ongoing)

Institut Bisnis Informatika Kesatuan

- Current GPA: 3.5 / 4.0

SKILLS

- UI/UX Design: Figma, Adobe XD, Sketch, InVision
- Web & Mobile Application Design • Wireframing & Prototyping
- Website Development (as demonstrated in the GoHijau and PKMRI Bogor projects)
- User Research & Usability Testing
- Data Analysis & SCADA System Monitoring
- Information Systems & Database Management

ADDITIONAL

- Open to internship opportunities — eager to grow and learn
- Willing to be placed in the Jakarta area
